In general, HKDSE Standard Score are the sum of scores of four HKDSE core subjects and one or two best elective(s), including M1/M2. If the individual programme requires specified elective subject(s), this (those) should refer to such one or two best elective(s).

[#] In MBChB programmes, M1/M2 contributes to the total HKDSE score if the grade in M1/M2 is better than the worst of the three best electives. In that case, the score for the worst elective is replaced by a new score comprising half the original score for that elective and half the score of M1/M2. For students who only have 2 electives and M1/M2, half of the M1/M2 score will be counted in the total score.

The minimum requirements for JUPAS applicants applying for the admission to the University's full-time government-funded bachelor's degree are as follows:

HKDSE Subjects	Core Subjects				Elective Subjects (including M1/M2)	
	English	Chinese	Mathematics (CP)	Liberal Studies	1st Elective	2nd Elective
Level Requirement	3	3	2	2	3	3

For admission to the BSc(Hons) in Nursing and BSc(Hons) in Mental Health Nursing, students must have Level 3 or above in at least two HKDSE elective subjects from Category A.

For further details, please visit:

<http://www51.polyu.edu.hk/eprospectus/ug/iupas/general-entrance-requirements>

(B) Admission score calculation

- One of the four mechanisms in the calculation of admission scores, namely "Any Best 5 Subjects", "Chinese & English Languages + Any Best 3 Subjects", "Any Best 6 Subjects", and "4 Core + Best 2 Elective Subjects" is adopted in all Individual Broad Disciplines (BDs) or programmes.
- All relevant subjects will be given a weighting in the calculation of admission scores in individual BDs or programmes. For degree programmes, core subjects as specified in the University General Entrance Requirements will be given a weighting of at least 7 whilst preferred subjects will be given a weighting of 10. For Higher Diploma programmes, Chinese Language and English Language will be given a weighting of at least 7 whilst preferred subjects will be given a weighting of 10. All other subjects (including relevant Applied Learning subjects) will be given a weighting of at least 5.

- For the Degree Programmes, Extended Modules of Mathematics will be treated as a single subject in calculating the admission scores.
- For Higher Diploma Programmes which have specified M1/M2 as subjects with the highest weighting, if the weighted subject score of M1/M2 is higher than that of the "last best weighted subject" under "Chinese & English Languages + Any Best 3 Subjects", the "last best weighted subject", and M1 or M2 will each carry 50% weight in the admission score calculation.
- For students who study both M1 and M2, only one of them will be calculated in the admission scores.

(B) Selection Principles and Subject Weighting for 2017 JUPAS Admissions

After having fulfilled the university entrance requirements and programme entrance requirements, the undergraduate programmes will use either the '4C+2X', 'Best 5 subjects' or 'Best 6 subjects' principles (the combination of the best 5 or 6 subjects being not bounded to '4C+1X' or '4C+2X') to consider candidates' admission. The term "subjects" refer to Category A subjects and M1/M2 are excluded, unless otherwise specified.

Some programmes give heavier weighting to certain HKDSE subjects and different programmes may consider a selection of factors in addition to HKDSE results.
